

Vision The Vision of Project Access New Haven is to be the community champion for access to care for those most in need.

Mission It accomplishes the Vision through its Mission of increasing access to medical care and services for underserved patients in the Greater New Haven area.

Objective #1- Achieve Impact

Outline and implement a process for evaluating new program potential, assessing existing programs and ensuring that every program has the potential to make an impact.

Objective #2 - Adapt to a Changing Environment

Define ongoing program criteria so as to grow and adapt to an evolving healthcare environment.

Objective #3 - Govern Effectively

Evolve and strengthen organizational governance.

Objective #4 - Build Relationships

Evaluate and define the long-term and short-term relationship with Yale-New Haven Hospital.

Objective #5 - Attain Sustainability

Identify and generate diversified revenue streams that include programmatic revenue opportunities, non-program revenue sources and philanthropy.

IMPACT Objectives

- Improving quality of life for those who are under-served
- Delivering efficient and cost effective care
- Creating innovative and replicable models
